J-Service.

I Centri Assistenza Jacuzzi® offrono un servizio di supporto post-vendita capillare e tempestivo: dalla consulenza ai clienti, alla manutenzione periodica dei prodotti, all'affiancamento tecnico per l'installazione.

Per quest'ultima, J-Service ha previsto due formule:

- montaggio congiunto – un tecnico J-Service affianca l'installatore nel montaggio e messa in opera del prodotto, fornendogli un'assistenza qualificata (questo servizio è valido solo in Italia).
- installazione completa – l'installatore può affidare ai tecnici J-Service il montaggio totale e l'installazione completa del prodotto.

Garanzia.

Alla rete J-service è affidata la gestione della Garanzia Totale di 24 mesi, senza alcun onere a carico del cliente. I Centri assistenza utilizzano esclusivamente ricambi originali Jacuzzi® e si fanno garanti di eventuali non conformità riconducibili all'installazione del prodotto. La Garanzia può essere estesa fino a 5 anni, aderendo al programma di manutenzione periodica (estensione ottenibile solo in Italia).

The Jacuzzi® concept of wellness also means freedom from worry, knowing that you can always count on J-Service, an organisation whose qualified team of professionals will guarantee a fully-functioning Jacuzzi® product at all times. It means having Jacuzzi® at your service. If that's not wellness, what is?

J-Service.

The extensive network of Jacuzzi® service centres offers a prompt after-sales service that includes customer advice, periodic maintenance and technical support when it comes to installation.

Two installation packages are available:

- Joint installation – a J-Service technician will help your installer with fitting and start-up, providing expert advice (this service is only available in Italy).
- Full installation – your contractor can leave all the assembly and installation to our expert J-Service technicians.

Warranty.

The J-Service network is responsible for the Full 24-month Warranty, at no cost to the customer. Our service centres only use original Jacuzzi® parts, and will answer for any non-conformities related to product installation. Membership of the periodic maintenance programme gives you the option to extend the warranty up to 5 years (warranty extension is only available in Italy).
