

lodge the hot tub with a great sense of hospitality

Mission: hospitality. Goal achieved.

A product created for the hospitality sector

Lodge is the Jacuzzi® spa dedicated to holidays parks, glamping sites, hotels and holiday villages. In other words, it has been designed to be used frequently and in good company. Its minimalist design perfectly complements any garden, terrace, relaxation area or beach.

The benefits of the legendary Jacuzzi® wellness

Jacuzzi® invented the hydromassage and went on to improve it for 50 years: the result is unique and exclusive hydromassage technology. This is why Lodge can offer your guests a complete and effective wellness path, thanks to the various seats and to the programmes dedicated to different body areas.

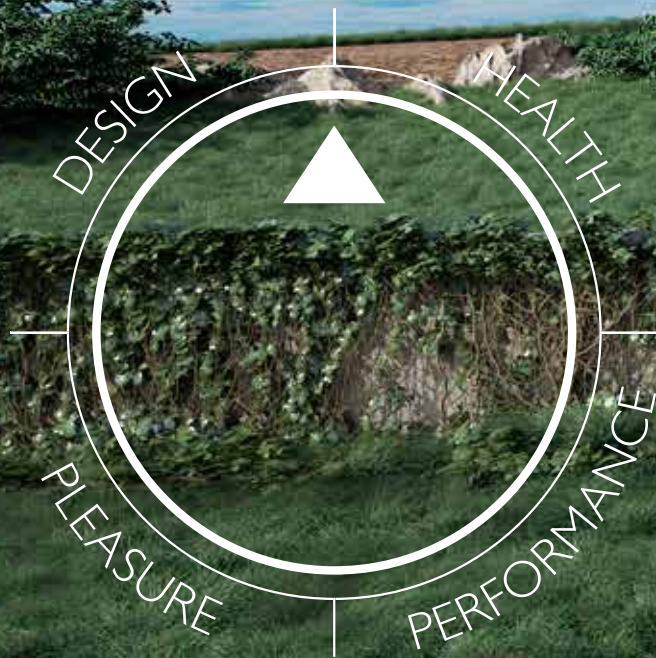

Tailored to suit your needs

Lodge can be tailored to suit the specific requirements of the environment. The basic model can be enhanced by devices, options and functions while reducing management costs and procedures.

Technical features that favour hospitality

Lodge is easy to install and use. All its controls are simple and user friendly. Each of its features are designed for constant efficiency and immediate use while ensuring utmost hygiene and guaranteeing the easiest maintenance possible.

The advantages
offered by Lodge
become assets
for your hotel.

EXCLUSIVE DESIGN

Lodge combines glamorous looks with **unbeatable roomy comfort** for a wellness experience that blends beauty with pleasure.

FAMILY WELLNESS

Lodge has **4 seats set at various heights + 1 child's seat** as well as different hydromassage treatments. This is why it can comfortably accommodate various body shapes and offer a wellness path tailored to suit the individual requirements of the whole family.

UTMOST FLEXIBILITY

To adapt to the requirements of your hotel, Lodge is available in the **blower, hydro and blower + hydro versions** and can be installed **built-in or freestanding**.

built-in

freestanding (silver wood)

WELLNESS & PLEASURE

Lodge turns any wellness treatment into a unique experience and offers additional pleasure and enjoyment thanks to the underwater, multicolour **internal LED lighting**.

EASY USE & ACCESS

Lodge is provided with a wide deck that makes it easy to get in and out of the hot tub, is large enough to sit on and houses an **inwardly-facing display to control your hydromassage from the comfort of your seat**. As well as being simple and user-friendly, you can even lock some of the functions so that only the main controls are active during use.

COMFORT & SAFETY

Lodge guarantees unbeatable comfort and total safety, ensured by **integrated steps**, a non-slip base and a self-draining **inner surface**.

THE JACUZZI® WELLNESS PATH

Lodge offers seats at different heights and **customised wellness treatments** thanks to 20 hydromassage jets and 10 blowers.

10 blowers
Lots of relaxing bubbles for a sparkling effect.

20 jets
Deliver a vigorous hydrotherapy treatment to the back and calf muscles for a customised massage.

UTMOST HYGIENE GUARANTEED

The water in the Lodge spa is treated and kept clean by means of a cartridge filter and a skimmer that ensure it can be shared in total safety. It is also possible to install the **ClearRay®** system and the **Performance Pack** for intensive use.

ClearRay® (optional)
The ClearRay® water disinfecting system kills more than 99.9% of waterborne pathogens thanks to the exclusive UV technology and can help reduce the use of chemical sanitising products by 50%. Easy to maintain, the lamp must be replaced just once a year.

Performance Pack (optional)
Guarantees extra filtering action for purer water while requiring less maintenance compared to traditional cartridge filters. The sand must be checked once a year to prevent lumps from forming and it must be replaced once every 3-4 years.

A SPA FOR ALL SEASONS

Thanks to the Lodge's heating system, it can be used outdoors all year round regardless of the weather. The spa can be fitted with an **Electric Heater (2 kW)** or a **Heat Exchanger**. For even quicker heating it is possible to add an **optional 6 kW (3+3) heater** to the 2 kW one.

READY TO GO

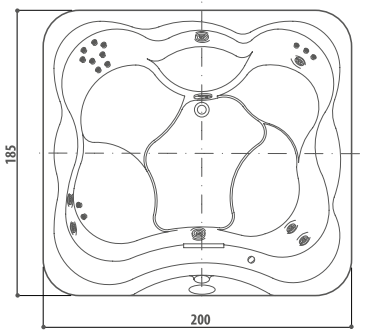

Lodge drains in less than 20 minutes and is ready to be cleaned and prepared straight away, thus requiring **less of your staff's time and attention**.

Lodge is ready for use in less than 6 hours.

PREPARATION TIME	5h 40 min
Quick drain	~ 20 min
Cleaning	~ 30 min
Filling	~ 50 min
Heating and sanitising	~ 240 min

THERMAL INSULATION AND ENERGY SAVINGS

The **insulated cover**, finished with sturdy stitches and easy to grip handles, keeps the hot tub at a comfortable temperature because it prevents heat dispersions while protecting it from contamination. Our optional **Winter Pro Kit** guarantees thermal insulation, limits heat dispersion and reduces energy consumptions.
